

ALGORITHM...Insertion at beginning of SLL

Sunday, August 9, 2020 6:29 PM

Algorithm..

Insertbegin(start,avail,l,temp)

```

if avail=null
  print"overload"
exit
end if
  save<-avail
  avail<-link->avail
if start=null
  start<-save
  data->start<-item
  link<-start->null
exit
end if
  ptr<-start
  start->save
  data<-save->item
  link->save<-ptr
end
  
```
