ALGORITHM.. Node No. Containing even values

Saturday, August 8, 2020   8:41 AM

Algorithm.

evennodedata(start)

if   start=null
     print"error"
exit
end if
     ptr<-start
     nodeno<-1
repeat
     if data->ptr%2=0
     print nodeno
end if
     ptr<-link->ptr
     nodeno<-nodeno+1
     if ptr=null
exit
end if
end repeat
end

| 5 | 102 | → | 6 | 103 | → | 9 | null | → | 12 | Null |

101   102   103
